- 6 The cumulative frequency diagram shows information about the ages, in years, of 180 people attending a cinema to watch a film.

The prices of different tickets are shown in the table below.

Child (18 years and under)	General Ticket	Senior (60 years and over)
£6.50	£9.50	£7.50

Use the graph to work out an estimate for the total amount of money the cinema receives in ticket sales for the showing of this film.
